Artsyl Technologies and Square 9 Softworks Form Strategic Partnership

Artsyl Technologies' advanced capture solutions will help to drive business process automation for end users of Square 9 Softworks' content management solutions

ONTARIO, CANADA (July 26, 2011) — Artsyl Technologies™, a leading provider of data capture and document processing automation technologies, **has formed a strategic partnership with Square 9® Softworks**, a leading developer of innovative, business-centric software solutions including the award-winning SmartSearch Content Management Suite. Under the new partnership, Artsyl Technologies' advanced capture solutions are now available to Square 9 Softworks' customers through Square 9's expanding network of more than 250 Value Added Resellers (VARs) across North America.

docAlpha, Artsyl Technologies' most sophisticated capture solution, automatically collects, identifies and captures large volumes of structured and semi-structured documents and provides advanced classification and capture capabilities to extract and verify high-value data. This robust solution is an excellent fit for the most demanding high-volume, high-complexity applications and serves as the upgrade path for **SimpleCapture**, Artsyl's entry-level to mid-range solution. Artsyl's solutions are ideally suited for processing documents such as invoices, purchase orders, medical claims and sales orders; supporting the needs of a wide variety of industries including education, healthcare, medical, logistics, transportation and manufacturing.

"This exciting new partnership makes Artsyl Technologies' advanced capture solutions available immediately to Square 9 Softworks' fast-growing end-user community and expanding VAR network," said Stephen Young, President and CEO of Square 9 Softworks. "A widely recognized innovator and leader in advanced capture technologies, Artsyl Technologies' solutions are an excellent fit with Square 9 Softworks' content management solutions. Together these solutions can help Square 9's customers move beyond document imaging and content management and into the realm of business process automation where they can realize potentially enormous productivity gains and cost savings."

"Our partnership with Square 9 Softworks represents a giant step forward for the reseller community," said Jeff Moore, Vice President of Sales and Marketing of Artsyl Technologies. "The addition of advanced data capture and document processing to Square 9's cutting-edge solutions like SmartSearch gives resellers the best of all worlds."

Now resellers can offer their business customers fully integrated solutions from the MFP to the Content Management repository. Using advanced capture technologies, data can drive active business processes and initiate automated workflows. With this combination of technologies, the reseller community can propose true Managed Document Services.”

Like Square 9 Softworks’ solutions, **Artsyl Technologies’ capture solutions** are powerful and yet **easy to install, configure and support**. The combination of ease of use and value designed into Artsyl’s solutions makes them attractive to larger organizations and more affordable to smaller ones seeking to introduce a higher level of automation into their business processes. Their architecture and scalability also make these solutions highly compatible with Square 9 Softworks’ leading content management solutions such as SmartSearch.

Artsyl Technologies’ **docAlpha** is a client-server data capture and document processing solution which offers resellers the most advanced architecture on the market as well as one of the easiest technologies to deploy and support. Entirely developed in Microsoft .NET and fully Service-Oriented Architecture (SOA)-compliant, docAlpha is highly scalable and easily integrates into most modern line-of-business applications. Artsyl’s SimpleCapture is a desktop data capture solution targeted at SMB and departmental applications where little or no information technology support is required.

The **SmartSearch Content Management Suite** is a feature-rich solution suite that organizations of all sizes use to manage their documents electronically, driving efficiency and productivity across all business processes. Built for content management on the .NET platform using an open architecture design, **SmartSearch** is a scalable, value-driven solution that is easy to use, learn and support. From small businesses to the Fortune 500, organizations that rely on document-intensive processes use SmartSearch to manage documents electronically and streamline their workflow as they eliminate inefficient paper-based filing systems.

About Artsyl Technologies, Inc.

Artsyl Technologies™ develops a full range of document capture software which reduces the cost of processing forms as well as the storage, search and retrieval of documents for customer service and regulatory compliance. The company sells its products through a network of more than 120 Value Added Resellers who specialize in a variety of applications such as invoice processing, healthcare, logistics and local and state government.

Its primary products are SimpleCapture, a mid-range application which is the easiest to learn and easiest to use product in its class, and docAlpha, its high-end, server-based product, which automatically collects, identifies and captures large volumes of structured and semi-structured documents. Both docAlpha and SimpleCapture integrate with a wide range of front-end scanners, MFPs and fax servers and with popular document management and database back ends.
