

Artsyl Elite Level Certification and docAlpha Training for VARs

Artsyl and NewWave Technologies would like to invite you to join us at the upcoming docAlpha certification class to be held in November at NewWave Technologies in Frederick, MD. This event will be for Elite level Artsyl Partners. To sign up as an Elite Partner or to upgrade from Premier Partner status please contact your NewWave sales representative today.

This certification course includes five days of intensive classroom training which will cover **SimpleCapture NEW 3.0 version** and **docAlpha NEW 3.0 version**: docAlpha Batch Capture, Distributed Capture, Structured and Semi-Structured Forms Recognition training. Each day will start promptly at 9:00 am and include a working lunch provided by Artsyl & NewWave.

To register for the training please contact:

docAlpha

docAlpha is a fully-automated distributed data capture, extraction, classification and processing solution. docAlpha automatically collects, identifies and captures large volumes of structured and semi-structured documents. It provides advanced classification and capture capabilities to extract and verify data and seamlessly integrates with a wide range of document management, content management and database applications.

docAlpha imports documents from any local or remote source, including scanners, networked MFPs, fax servers or directories. Its front-end integration enables knowledge workers to capture documents from the control panel of popular MFPs and launch a workflow that taps the advanced capture, verification and back-end integration features of docAlpha.

SimpleCapture

SimpleCapture is a simple, affordable solution for automating information capture from paper-based workflows. It allows an organization to reduce data-entry efforts by 50% or more by automating data extraction efforts. SimpleCapture provides out-of-the-box data capture capabilities without the need for costly integration and extensive labor force training.

Unlike most other data capture products, it does not require setting up form templates and can intelligently learn the documents on the fly as the operator processes them. SimpleCapture easily integrates and collects incoming paper and electronic documents from the customer's range of MPFs, desktop and department scanners and fax servers.

DATE & LOCATION

Location:

NewWave Technologies Inc
4635 Wedgewood Blvd. Suite 107,
Frederick, MD 21703

Date:

November 1 - 5, 2010
