

Artsyl docAlpha & SimpleCapture Web-Based Training for Platinum and Gold VARs

Artsyl and NewWave Technologies would like to invite you to join upcoming free Artsyl docAlpha & SimpleCapture Web-Based training sessions to be held in October 2011. Partners can pick any date from the proposed dates. These sessions are offered for Platinum and Gold level Artsyl Partners. To sign up as a Platinum or a Gold-level Partner please contact your NewWave sales representative today.

docAlpha Web-Based training is delivered as a 2-hour session - **docAlpha Introductory Training for VARs**. The session covers the basics of docAlpha architecture, installation, licensing, doing efficient demos with the product with the demo packages provided to VARs by Artsyl, and setting up your own demos for Batch Capture, Distributed Capture, Structured and Semi-Structured Forms processing.

SimpleCapture Web-Based training is delivered as a 1-hour session- **SimpleCapture Training for VARs**. The session covers SimpleCapture architecture, installation, licensing, doing efficient demos with the product and setting up your own customized demos.

To attend Artsyl Web-Based docAlpha training please fill the registration form at http://www.artsyltech.com/company_newsevents.html

SimpleCapture

SimpleCapture is a simple, affordable solution for automating information capture from paper-based workflows. It allows an organization to reduce data-entry efforts by 50% or more by automating data extraction efforts. SimpleCapture provides out-of-the-box data capture capabilities without the need for costly integration and extensive labor force training.

TRAINING DATES

docAlpha Basic Capture & Admin (One Day Session):

Date: October 11, 13, 25, 27

Time:

Nov 11 & 25: 11:00 a.m. - 1:00 p.m. EST

Nov 13 & 27: 1:00 p.m. - 3:00 p.m. EST

SimpleCapture (One Day Session):

Date: October 6, 19

Time: 1:00 p.m. - 2:00 p.m. EST

docAlpha

docAlpha is a fully-automated distributed data capture, extraction and processing solution. docAlpha automatically collects, identifies and captures large volumes of structured and semi-structured documents.

It provides advanced classification and capture capabilities to extract and verify data and seamlessly integrates with a wide range of document management, content management and database applications. docAlpha imports documents from any local or remote source, including scanners, networked MFPs, fax servers or directories.

Its front-end integration enables knowledge workers to capture documents from the control panel of popular MFPs and launch a workflow that taps the advanced capture, verification and back-end integration features of docAlpha.

DOCALPHA TRAINING AGENDA

DocAlpha Architecture Overview

- Basic ICR

Supported Software and Hardware Platforms

- Using SimpleCapture Station for verification

Product Installation

- Server
- Stations

Basic Administration

- Creating a basic workflow
- Importing/Exporting a workflow
