## Artsyl Technologies releases NetSuite ERP/CRM/PSA connector for docAlpha IDR data capture solution

*Tight integration of Artsyl's docAlpha Advanced Capture Platform Further Expands Capabilities of NetSuite, the #1 Cloud Business Software Management Suite*

**ONTARIO, CANADA (April 18, 2016)** — **Artsyl Technologies, Inc.**<sup>TM</sup>, a leading global provider of data capture and document processing automation technologies today announced the official release of its NetSuite Enterprise Resource Management (ERP) integration. The tight integration of Artsyl's [docAlpha Advanced Capture Platform](#) with NetSuite provides a powerful solution to cover all document capture needs and provides end-to-end automation for document- or data-dependent processes, including supplier invoice, customer sales order and remittance processing.

Artsyl's docAlpha enables NetSuite customers to reduce manual data entry costs, increase data accuracy, improve document processing speed while providing an instant, end-to-end audit trail of document-driven processes and facilitating process compliance and data/document security. With support for extraction and processing of line item data as well as two- or three-way matching of orders, invoices and receipts, docAlpha fully automates sales and purchase order processing.

"Adding the NetSuite connector to our portfolio of docAlpha platform ECM and ERP integrations represents another landmark for Artsyl as we continue to help growing companies take the pain out of their business processes and streamline operations," says Jeff Moore CSO/Partner at Artsyl Technologies, Inc.

"We look forward to partnering with NetSuite resellers to introduce docAlpha to the growing community of 30,000+ NetSuite customers and demonstrating how docAlpha can eliminate data entry and automate approval routing for any document-driven process."

docAlpha provides fully automated document classification, data extraction, rules based validation of data, automated splitting and routing of documents to users or queues with email notifications and unmatched export integration capabilities.

Key features of Artsyl's NetSuite Business Management Software Suite integration include:

- Instant data transfer from Artsyl to NetSuite
- Full document and meta-data transfer between systems
- Fast and easy deployment with NetSuite
- Provides central control over standards, security and auditing

#### **About Artsyl Technologies, Inc.**

Artsyl Technologies, Inc. is the innovative company behind the docAlpha Intelligent Document Recognition (IDR) platform. For over 10 years Artsyl has been designing, building and innovating technology used by companies globally to reduce their document processing burdens. Whether you have Accounts Payable Invoices or Medical documents like Claims, EOBs or Patient Records docAlpha is designed to make their processing easy. docAlpha can be used in any business process to automate the classification, data extraction, validation and routing of mission critical information to its proper line-of-business application. docAlpha is a state-of-the-art IDR platform designed using Microsoft .NET and a Services Oriented Architecture (SOA) which allows it to scale up for Enterprise level On-Premise deployment or be used as a CLOUD based SaaS solution. docAlpha is sold through distributors and VARs globally. Visit <http://www.artsyltech.com> for more information.

#### **About NetSuite**

NetSuite Inc. is the industry's leading provider of cloud-based financials / Enterprise Resource Planning (ERP) and omnichannel commerce software suites. In addition to financials/ERP and omnichannel commerce software suites, NetSuite offers a broad suite of applications, including financial management, ecommerce and retail management, commerce marketing automation, Customer Relationship Management (CRM), and Professional Services Automation (PSA) that enable companies to manage most of their core business operations in its single integrated suite. NetSuite software allows businesses to automate operations, streamline processes and access real-time business information anytime, anywhere.
