# *Accelerate* Revenue Cycles in 3 Easy Steps

Customer Orders and **Supplier Invoice** payments are considered the "Financial Drive Train" of a business. They drive both financial performance, competitiveness and sustainability. **There is a need to fill the gap in automation for manual document-based processes.** Artsyl suggests 3 easy steps.

Step 1 - OrderAction

Process Efficiency

Process POs as they come in
Reduce errors and reprocessing associated manual processes
Optimize AR staff resources

Accelerate Sales Approvals

Reduce Days Sales Outstanding

Create SALES ORDERS faster by Validating Customer POs with Customer Service, Sales, and Supply Chain data-bases

Accelerate Order Fulfillment

Step 2 - InvoiceAction

Maximize Productivity

Auto Research
"Click & Fix" processing
Machine Learning Assist
Increase Direct Entries

Accelerate Data Availability

Customized Workflows

Auto Routing
Notifications
Escalations
Auto GL Coding

Accelerate Approvals

Step 3 - ArtsylPAY

Get paid faster! Make it easy for customers to make payments.

Receivables

Artsyl Pay

Get paid for something you were going to do anyway . . . Pay Invoices!

Payables

ArtsylPay is a secure cloud-based Payments automation services platform. Providing automation for both Receivable Payments from your customer and Payable invoices to vendors

Customers
Purchase Orders
Fulfill & Invoice
Payments
Your Business
Invoices
Payments
Vendors

Artsyl's IPA platform, collects, extracts, validates and enters document-based data - *accelerating* the availability of digital data that mostly all Business Management Solutions and automation technologies rely upon.
